IMPORTANT PLEASE NOTE

Legislation regarding the Prevention of accidents at work imposes health and safety protection coordination for any work site placing at least two companies or self-employed workers in the presence of one another.

The Exhibitor Instructions communicated to you defines all the measures set in place to prevent risks arising from the interference of the activities of the various people working on this event. This document was drawn up at the request of the show Organizer by the Coordinator M. Yves DEGUSSEAU in accordance with the provisions defined by the texts in force and in particular the following Law of:

31.12.1993 nr 93-1418 and the Decree
of 26.12.1994 nr 94-1159
Modified and complemented by the Decree
nr 2003-68 of 24.01.2003

- **To combat risks** at source,
- **To take account of technical developments,**
- **To replace what is dangerous by what is not** or by what is less dangerous,
- **To plan prevention** measures by coherent integration of techniques, work organization and working conditions,
- **To take collective protection measures** giving them priority over individual protection measures.
